

Medical Coding

At Rapid Care, we understand the challenges due to the evolving landscape of medical coding. Navigating the complexities of ICD-10, changes in regulations, and ensuring your coding processes remain aligned with your objectives can be a daunting task.

The benefits of outsourcing your medical coding as an extension of your practice:

- A team of over 70 expert medical coders with AHIMA and AAPC certifications
- ensure your medical coding needs are handled with the utmost precision and speed
- guarantee a minimum of 95% accuracy
- a turnaround time of 24-48 hours
- tailor our services to your unique requirements, EMR system, and chart types

Whether you need support with outpatient or inpatient coding, we've got you covered. Our goal is to expedite your revenue cycle, reduce claim denials, and eliminate coding backlogs – all while maintaining the highest possible quality standards. We achieve this through rigorous quality checks, experienced team leadership, and a robust backup of medical coders ready to ramp up production when needed.

At Rapid Care, we're more than just a service provider, we're a valued partner committed to your success. By outsourcing your medical coding needs to us, you'll gain access to accurate, compliant coding processes, streamlined revenue cycle management, and peace of mind.

Contact us today to learn how Rapid Care's customized solutions can support your success.
